Wireless Battlemesh v6
Lightning Talks
April 17th, Aalborg

CNBuB 2013 Workshop

(Community Networks Bottom-up Broadband 2013 workshop)

Why an academic workshop?
motivation

• An attempt to help to reduce the big existing gap between the two worlds (i.e. battlemesh vs. simulators)

• A win-win deal in knowledge sharing
  • Academia → CNs: formality, access to other ideas, amplify the dissemination, resources, etc.
  • CNs → Academia: brilliant ideas, on-the-field experience, good coders, etc.

Details I

- Website:
  - http://research.ac.upc.edu/CNBuB2013/ (work in progress)

- Co-Located workshop at IEEE WiMob 2013
  - Lyon, France, October 7, 2013
  - http://conferences.computer.org/wimob2013/

- half-day workshop
- 2 edition
  - first edition: IEEE WiMob 2012
  - 16 papers submited, 8 accepted
  - http://research.ac.upc.edu/CNBuB2012/

- Co-Chaired: 1 academia member + 1 community member
  - so far Felix Freitag + Roger Baig
  - volunteers for the 3rd edition?

- All papers accepted will be published in the WiMob 2013 Proceedings published by IEEE.

Details II

- Important dates:
  - submission deadline on June 15, 2013
  - notification of acceptance on July 15, 2013
  - camera ready paper due July 24, 2013
  - advanced registration by: August 26, 2013
    - => €€€€€ grrrr... We have some resources to (partially?) sponsor community member tickets

- We need:
  - Papers
  - Reviewers

WE ARE WAITING FOR YOUR CONTRIBUTIONS

THANKS
